Health and Safety Policy

Ranbuild Great Southern is fully committed to the principles of Work Health and Safety (WHS) and the provision of a safe and healthy work environment for all workers and visitors.

Ranbuild Great Southern supports meaningful and effective consultation with workers and other stakeholders, whose input is encouraged and incorporated into the decision-making processes regarding health and safety matters.

Ranbuild Great Southern recognises that health and safety is everyone's responsibility, therefore all workers have a primary duty to -

- take reasonable care for the worker's own health and safety.
- take reasonable care that the worker's acts or omissions do not adversely affect the health and safety of other persons.
- comply, so far as the worker is reasonably able, with any reasonable instruction that is given by Ranbuild Great Southern to allow the person to comply with the WHS legislation.
- cooperate with any reasonable policy or procedure of the person conducting the business or undertaking relating to health or safety at the workplace that has been notified to workers.

Ranbuild Great Southern will promote a proactive approach to Health and Safety and regularly review health and safety performance to monitor the effectiveness of their actions.

Objectives

Ranbuild Great Southern will actively secure the health and safety of workers and workplaces by -

- protecting workers and other persons against harm to their health, safety and welfare through the elimination or minimisation of risks arising from work.
- providing for fair and effective workplace representation and issue resolution in relation to work health and safety.
- fostering cooperation and consultation.
- providing a framework for continuous improvement and progressively higher standards of work health and safety.
- assisting employees to identify and reduce risks associated with Ranbuild Great Southern operations.
- minimising the impact of our operations on the environment.
- ensuring that the Ranbuild Great Southern Safety Management System and our activities meets with the requirements of current WHS legislation.
